Foundations of the C++ Concurrency Memory Model

shows an example [1] where the answers to these questions are unclear from the current specification Without precise semantics, it is hard to reason when a com-piler transformation will violate these semantics For example, Boehm [7] shows that reasonable (common) interpretations of the current specification do not preclude a class of compiler

Trenching and Excavation Safety - Occupational Safety and ...

strength of 15 tons per square foot (tsf) (144 kPa) or greater Examples include: clay, silty clay, sandy clay, and clay loam Certain conditions preclude soil from being classified as Type A For example, no soil is Type A if it is fissured or has been previously disturbed See Appendix A to Subpart P of Part 1926,

Selecting Filler Metals: Matching Strength Criteria

metals, such as the AWS D11 Structural Welding Code - Steel, Table 31, as do various filler metal suppliers A careful review of AWS D11, Table 31, shows that the matching electrodes do not deposit welds with exactly the same strength as the base metal, and in reality, this is not what is meant by "matching" In Table 31, A36 and

THE EFFECTS OF RETROGRADE CARDIOPLEGIA TECHNIQUE ...

Both T1- and T2*-weighted images covered a 15 ×15-cm² field of view with a 128 ×128 matrix, leading to a pixel size of 117 ×117 mm² During the intervals between each peri-od of the protocol, the hearts in both groups were subjected to approximately 2 minutes of antegrade perfusion to ensure a
