clear definition of the problem 313 Section D defines Programming and formulates criteria for problem-seeking and the roles of the individuals or groups involved First in a general sense and then some methods are examined in broad outline The relevance of Programming is defined as well as some of its potential uses

Problem Seeking -Core Questions

The Whole Problem -4 Considerations Peña, William, Problem Seeking, An Architectural Programming Primer, Third Edition, AIA Press, Washington, DC, 1987 ISBN: 0-913962-87-2 Function Time Economy Form People Activities Relationships Change Growth Schedule Initial budget Operating costs Life cycle costs Site Environment Quality

DOCUMENT RESUME ED 037 930 Pena, William M.; Focke, ...

Design is problem solving; programming is problem seeking The end result of the programming process is a statement of the total problem; such a statement is the element that joins programming and design The "total problem" then serves to point up constituent problems, in terms of four considerations, those of function, form, economy and time

PROGRAMMING

design problem prior to beginning the design, which is intended to solve the problem Architectural programming is a team effort that requires close cooperation between architects and their clients Problem Seeking, put forth a five-step procedure that teams can follow when programming any building or series of buildings, from a small house to

The Owner's Project Requirements and where it fits in the ...

architectural program is the Owner's Project Requirements which is why there is confusion in the building industry Careful examination of the key elements of how to develop an architectural program defined in the book "Problem Seeking", An Architectural Programming Primer by WM Peña

ARCHITECTURAL PROGRAMMING

1 NSF - Net Square Footage - Some circulation may be part of the unit sizes (ie space to stand in front of counter or file cabinet) - Some circulation is included in the NSF for work areas and cubicles - Some circulation is included in the NSF for office spaces • need space for layout and to move around • NOTE: Since office spaces still need additional circulation to be
